

FISCAL YEAR 2020 OPERATING BUDGET

As Approved by the PRIM Board

May 14, 2019

BUDGET DISCUSSION

The Pension Reserves Investment Management (PRIM) Board's fiscal year (FY) 2020 Operating Budget reflects the investment management, advisory, and operational costs necessary to implement, measure, and monitor the approximated \$75 billion in investments of the Pension Reserves Investment Trust (PRIT) Fund.

Budget Highlights

The projected FY 2020 budget of \$424.8 million is 56.6 basis points (bps) of projected average PRIT Fund assets (\$75 billion), a \$16.5 million, or 4%, budget increase from the prior year. As is our custom, budgeted expenses for FY 2020 are conservative and foresee continued asset growth. Actual expenses incurred may vary because most expenses are a function of asset levels and investment performance is not predictable.

Investment Management Fees and Third-Party Service Providers comprise \$407 million, or 95.8%, of the total budget. Investment Management Fees increased by \$11.4 million, or 3%, due primarily to growth in assets. Projected costs for Third-Party Service Providers increases \$2.8 million, or 18.3%, mainly due to increased custodian expense and support of new initiatives.

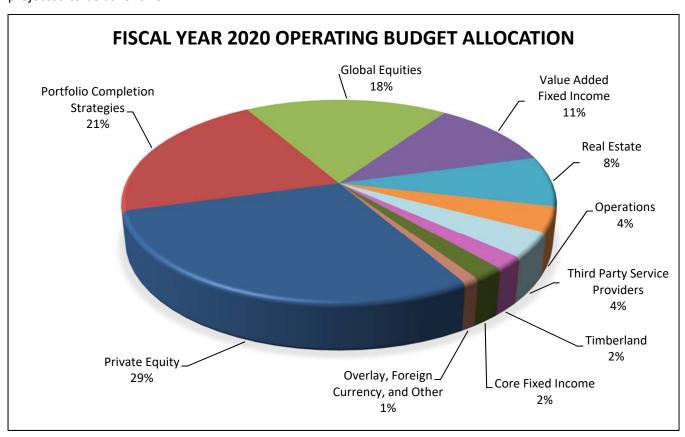

Operations comprise \$17.7 million, or 4.2%, of the total budget. Operations increases by \$2.3 million, or 14.9%, due primarily to projected increased staff size.

The PRIT Fund's current target asset allocation ranges, approved in February 2019, are as follows:

Asset Class	Range
Global Equity	34 - 44%
Core Fixed Income	12 - 18%
Value Added Fixed Income	5 - 11%
Private Equity	10 - 16%
Real Estate	7 - 13%
Timberland	1 - 7%
Portfolio Completion Strategies	8 - 14%

Based on these target asset allocation ranges, PRIM's Fiscal Year 2020 Operating Budget allocation is projected to be as follows:

[#] Basis points (bps) for Investment Management Fees are calculated by dividing the budgeted fees by the estimated assets under management (AUM) for each asset class. Basis points for Advisory Services for Real Estate & Timberlands, Public Markets, Private Equity, and PCS are also calculated based upon each asset classes estimated AUM. For all other expenses, the bps are calculated based upon the total PRIT Fund AUM, which is estimated to be \$75 billion and \$74 billion for FY20 and FY19, respectively.

FY19 amounts have been updated to reflect changes in FY20's presentation.

[^] No investment performance, incentive, or carried interest fees are budgeted.

^{*}Budgeted fees for Information Technology consultants were moved from the Operations section of the budget to Advisory Services–General.

^{**}Budgeted fees for Advisory Services – Public Markets have been broken out from Advisory Services – General.

OPERATING BUDGET NARRATIVE

The Fiscal Year (FY) 2020 Operating Budget is presented in three broad expense categories:

- Investment Management Fees
- Third-Party Service Providers
- Operations

Investment Management Fees:

PRIM employs professional investment managers and gives them discretion, consistent with specified objectives and guidelines, to manage the PRIT Fund's assets. Investment management fees are the fees paid to these investment managers for their services. Each investment manager operates under a contract (generally an investment management agreement or a partnership agreement) that delineates its responsibilities and appropriate performance expectations. Budget projections for investment management fees are based on the following factors and year-to-year budget fluctuations reflect changes to one or more of these factors:

- The PRIT Fund asset allocation
- Assets under management (AUM)
- Contractual fee schedules
- Capital commitments

No performance fees, incentive fees, or carried interest are included in this budget due to the difficulty in estimating these fees in advance.

Third Party Service Providers:

PRIM employs third-party service providers to support the PRIM Board, committees and staff to manage the PRIT Fund. Budget projections for third-party service providers are generally estimated based upon current service contracts and estimated future potential services.

Operations:

Operations expenses are projected based on current expenses and strategic initiatives that are deemed to be both probable and estimable.

Custody

BNY Mellon currently provides the PRIT Fund with global custody, accounting and performance measurement services. BNY Mellon provides custody for PRIT assets, records all investment transactions for the PRIT Fund, and provides recordkeeping for all participant activity for member retirement systems, including participant performance analysis.

Audit & Tax

KPMG provides annual financial statement audits for the PRIT Fund and PRIM. KPMG also provides audit services for PRIM's Real Estate, Timberland, and certain PCS investments. The audit fees for this work are charged to the underlying investments and are not included in the PRIM budget.

Deloitte provides PRIM with tax advisory services. Real Estate and Timberland property level tax return preparation fees and tax advisory fees are charged to the underlying properties and, as such, are not a part of the PRIM budget. However, the general tax advisory work is paid directly by PRIM.

PRIM retains outside counsel as necessary to provide legal services to PRIM. Outside legal expenditures can be difficult to predict and have historically fluctuated significantly based on the nature of activities of the PRIT Fund and PRIM.

Governance

Institutional Shareholder Services (ISS) provides a comprehensive analysis of proxy issues and vote recommendations for the PRIT Fund's domestic and international securities in accordance with PRIM's custom proxy guidelines. Cortex Applied Research Inc., is engaged to perform charter review and to administer the Board self-evaluation process. Operations

The FY 2020 Operations budget of \$17.7 million increases \$2.3 million or, 14.9%, reflecting primarily an increase in Compensation and Employee Benefits due to new PRIM staff positions.

Compensation & Employee Benefits

The FY 2020 Compensation budget includes allocations for additional positions and potential compensation increases for existing employees based upon the updated PRIM salary bands.

Per PRIM's Compensation Philosophy, to ensure PRIM remains competitive with market trends, a comprehensive compensation level analysis was conducted in 2018 by PRIM's compensation consultant, McLagan. To make incremental progress within these salary bands we have accordingly included allocations in the FY 2020 budget for potential base salary increases and for potential promotions. The budget for employee benefits consists primarily of dental, vision, and disability costs for employees as well as a contingency to cover potential unemployment claims since PRIM does not participate in the state's unemployment insurance pool. The budget also includes estimated Medicare taxes for all employees.

This category also includes telecom, internet service providers, hardware, software and support agreements, offsite data storage, and equipment for the expected growth of staff.

Travel, Professional Development & Dues and Subscriptions

This budget category represents costs associated with due diligence travel, ongoing professional education of PRIM Board members and staff, including related travel expenses and dues & subscriptions, which includes membership dues in professional associations and subscription costs for professional journals, investment industry publications, and newspaper subscriptions. Key Assumptions

Estimated Assets Under Management and Asset Allocation in FY 2020

Many of the budgeted expenses for FY 2020 are based upon the estimated average assets under management and the estimated average actual asset allocation.

The estimated average assets under management for FY 2020 is \$75 billion. To estimate PRIM's FY 2020 average assets under management, the beginning AUM of FY 2019 (July 1, 2018) was estimated to equal the PRIT Fund assets under management as of February 28, 2019, the most current and available information when creating this budget. The ending AUM of FY20 (June 30,2020) was estimated to increase by NEPC's expected 5-7 year return forecast of 6.8%. The estimated average AUM of FY 2020 is the average of the estimated beginning and ending AUM, which is approximately \$75 billion. Please note that future investment performance is not predictable and actual performance will vary.

The estimated asset allocation in FY 2020 is based on the current actual asset allocation of the PRIT Fund and projected future allocation changes. Projected allocation changes include a decrease in Global Equity, Value Added Fixed Income and an increase in Private Equity, Core Fixed Income and Portfolio Completion Strategies.

Performance, Incentive, or Carried Interest Fees

No investment performance, incentive, or carried interest fees are budgeted in FY 2020. These fees vary dramatically from year-to-year and are not predictable.
